

COVID-19 RESOURCES FOR CLIENTS

ALLIANT AND FIRST INSURANCE FUNDING: A STRATEGIC APPROACH TO PREMIUM FINANCING

We understand the seriousness of the situation many insured businesses are facing in light of COVID-19 and the impact this may have on cash flows.

Alliant is committed to providing our insureds solutions. First Insurance Funding is our valued partner in providing our insureds flexible premium finance options. First Insurance Funding has a dedicated team of Asset Management Professionals working with insureds on a daily basis to find payment solutions and help them stay covered.

The First Insurance Funding Asset Management team has established emergency procedures to handle special accommodations to provide relief wherever possible. Their existing Cancellation Avoidance and Recovery Program is very successful and has one of the lowest cancellation rates in the premium finance industry today.

Competitive terms and rates are available including:

- » 15% down and 10 monthly installments with up to 25% minimum earned for all standard accounts up to \$500,000 amount financed
- » Policy audit and fully earned policy financing options available (subject to insured's available credit history, financials, a D&B report and account history)
- » More favorable terms provided for fully-earned policies that can be cross-collateralized as an add-on to an in-force premium that First Insurance Funding is currently financing
