

CLIENT ALERT

COVID-19 Resources for our Healthcare Clients

Alliant is committed to supporting our clients, especially in these challenging times. We have created a landing page with links to resource information on COVID-19 with a focus on property and casualty insurance related matters. We have assembled a cross-functional task force team that is available to address questions and to assist our clients with the potential claims and disputes that will inevitably be upon us in the aftermath of the event.

You can access the resources here: <https://insurance.alliant.com/specialtyCOVID19-questions>

We thank, support and will continue to honor our healthcare clients who are at the forefront of protecting the health and well-being of our country.
