Already Retired, or Close to it? How to Think About Volatility in Perilous Times

Reuters

CHICAGO - The breathtaking coronavirus-induced plunge of the stock market has unnerved retirement investors of all ages, but it poses special risks for people close to, or already retired. Unlike younger workers with many years ahead of earning and saving, older investors are less able to fall back on income from work and may have less ability to wait out their losses.

Coronavirus: How Can Employers Manage This Fast-Changing Situation

ManagEase

The subject on top of everyone's mind right now is the coronavirus. What is happening, what does it mean for employers, how bad is it going to get? While no one has all the answers at this point, there are things that employers can do and should be thinking about to protect their employees and their businesses. First and foremost—don't panic!
